

Testimonial

Richard Fretwell
Guidepost Dental Practice.

Having the annoyance of a big molar filling drop out following a particularly challenging encounter with an over zealous boxing wannabe, Richard kindly offered to treat the said tooth at the only available time, which happened to be at 9 o'clock at night when I finished work and out of hours for Richard.

The treatment I received was expert and professional. I am extremely grateful for his help, kindness and personal service especially so late in the evening.
