

TESTIMONIAL
Richard Fretwell

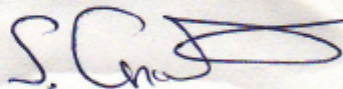

I could think of much better things to do than visit the dentist with a troublesome molar knowing the critter needs to be extracted.

I was most impressed by the welcoming environment and staff who greeted me at Mr Fretwells Practice. The reception and waiting area is clean and tidy and doesn't resemble the childhood memories of waiting in the dentists! The staff are cheerful, helpful, welcoming and professional. All this put me at ease before the tooth got it!

These molars are supposed to be stubborn and difficult to remove, I have however had longer check up's. The tooth was removed with pain free ease.

I have since returned and had a specialist gum shield moulded (red, white and blue) by Mr Fretwell which is not only a perfect fit but is the talk of the Fight Club which I run.

I could not recommend Mr. Fretwell more highly.
